Message from the Vice-President Prof. CHOW Ka Ming

Happy New Year of the Loong to all the fellows and members of HKCERN! I wish you all a joyful and fruitful year to come. I am honoured and grateful to have been elected as the Vice-President again of HKCERN for the period of 2024-2027.

Looking back on Year 2023, HKCERN has celebrated its 10th anniversary and we have successfully organised the first conference in April 2023. It was a great opportunity to gather nursing professionals from various institutes and clinical frontline to discuss and address the challenges and key issues in nursing and share insights on new developments in education and research. I would like to express my heartfelt gratitude to your unfailing support and dedication to make the conference successful and fruitful!

Carrying the theme and spirit of the conference, the College will continue to strive for breakthrough developments in nursing education and research to nurture the next generation of nurses. I look forward to welcoming and meeting young and committed new members and fellows joining our College this year! Apart from local collaborations, we are also expecting more national and global connection and expansion of network. Let's continue to foster and exchange new ideas and reach new heights in nursing education and research development in the coming year!
